# TAKE THIS SHOW ON THE *Road:*
## How to Start Your Own Mobile Dentistry Business

**Interprofessional collaboration and mobile clinics are positively impacting the health of our nation's most vulnerable populations.**

***The future of healthcare is here and it is in our hands.***

The correlation between oral health and overall health is now more widely accepted by the public. Yet countless barriers prevent millions of Americans from receiving oral health care services. Mobile dental services offer these patients a practical solution through convenient, affordable and equitable care.

In this groundbreaking presentation, Crystal Spring, RDH shares strategies for improving access to care for all. Participants will re-evaluate traditional methods and recognize mobile clinics as opportunities to provide exceptional care.

Illuminate how mobile dental and medical clinics have become a pertinent mode of delivery due to advancements in workforce models, product development, and innovations in dental equipment. Highlight communication and teledentistry protocols that prioritize patients' well-being. Pinpoint communication and collaboration strategies, with a focus on relationship building and continuity of care.
